To Whom It May Concern:

Re: Securway Security Services Limited

Dear Sirs,

Our Lady of Lourdes Hospital is a large acute hospital providing general medical and surgical services. In addition it is the regional centre for Trauma, Obstetrics and Paediatrics. The Emergency Department is one of the busiest in the country.

The above named company has provided a security service at this site since September 2006 on a 24 hour basis, 7 days per week. In that time they have demonstrated a willingness to be flexible and responsive to the needs of the hospital. Duties include traffic management, internal and external security, and special escort arrangements. Staff provided have been well trained and identifiable as security officers by virtue of their presentation (uniform).

The company has engaged as required with hospital management and any issues highlighted have been responded to in a timely manner. There has been no major adverse incident at this site involving any officers of Securway Limited.

It is my opinion that this company could be considered for any contract within the public or private sector based on their performance in this contract to date.

Yours sincerely

*Yvonne Gregory*
